

Total Security & Growth Solutions

Instant Counterfeit Elimination & Real-Time Tracking Worldwide

- ✓ Gain Market Share Fast
- ✓ Quick and Easy
- ✓ Low Cost
- ✓ Secure and Safe
- ✓ Any Industry

Counterfeiting and illicit trade are pervasive in nearly every industry sector, harming consumers and brand owners, while costing the global economy over 1 trillion dollars annually. Preservation of product and information integrity is increasingly important as sophisticated counterfeiting efforts easily defeat existing anti-counterfeit technologies. INKcrypt® smartQR™ is a revolutionary tracking and authentication solution based on unique, copy-proof biomarkers that empowers users and brand owners to authenticate products and information in real time.

Instant 100% Effective Authentication of Items & Information; and Mobile Tracking

Intrigue customers and supply chains with invisible interactive INKcrypt® xDNA™ biomarkers for secure mobile authentication and activity monitoring of any items worldwide.

Gain Market Share Fast

- ✓ Excite and attract users
- ✓ Get Instant Reports
- ✓ Stop Illicit Trade
- ✓ Empower Users to verify and grow brand value
- ✓ Apply FDA compliant smartQR biomarkers with confidence

Quick and Easy

Implementation is easy, 100% effective and low cost: Simply apply traces of invisible INKcrypt® xDNA™ biomarkers (available at goinkcrypt.com) onto any item. Sample and validate the marker using the smartQR™ test kit, which fits an entire lab into the size of a Postal Stamp and makes testing fast and easy to perform by users and brand owners. Anywhere, Anytime!

Low Cost

The INKcrypt® smartQR™ Solution is modular and configured to meet a customer's needs. INKcrypt® xDNA™ biomarkers and associated test kits are available at goinkcrypt.com. Users may also opt to implement the solution on a flat cost per item, which includes integration consulting and all required components throughout the enterprise.

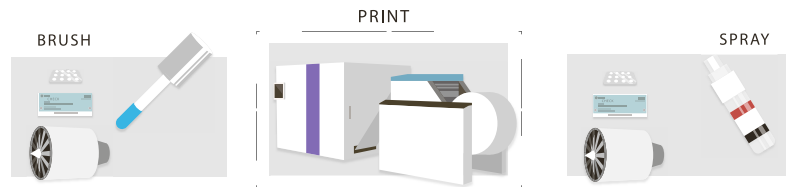

Secure and Safe

The secure goinkcrypt.com authentication platform allows individuals and brand owners to acquire and register custom INKcrypt® xDNA™ biomarkers and associated test kits, which are under exclusive control of the authorized member. During setup, members chose requirements and redemption benefits for participating testers.

Any Industry

INKcrypt® smartQR™ applies to any industry, large and small enterprises, institutional users and individuals. Ease of use, low cost, 100% efficient authentication and community-building interactive features make it the ideal platform to eliminate counterfeiting and illicit trade – while participating with convenience and rewarding excitement.
